FIGHTING THE EVIL The lab is about to suffer from a catastrophic meltdown. With your team, shoot, hack and move to defeat the fiend you created. The labs gonna blow! This demo features the very first early release version of NoReload Heroes. The game will be continuously updated with new content (weapons, maps, enemy types, bosses, game modes), so please keep coming back to check them out! The game is written in HTML5 which means it works on tablets, phones, and all browsers. The game runs fully in your browser and we do not use Flash or Silverlight! You don't need to download anything. NoReload Heroes is an indie game by four guys who couldn't be happier to be working on something they are truly passionate about. Thank you so much for your time and your interest in our game. We look forward to hearing from you! Developed By: Drew Richardson and Pete Murphy

The big day is finally here! Thirteen thousand people, counting the families, have gathered at the empty stadium to see how magical their kids' will turn out. Will you be a soccer mom who sports a top hat and monocle like a madcap character from Groucho Marx movies? A superwoman with an awesome bikini like an underage model from Brazilian Vogue? Or will your dream be fulfilled with glitter, a tiara, and a one-of-a-kind crown? Which one do you want your own child to be? You know what? It doesn't

matter. No matter how old your child will be, you can change his/her skin color, hair color, eye color, hat size, crown size, as well as the decor of their room with a simple touch of your mouse. Play all the characters and make your kid a cutie or a prima donna of the soccer world. Best of all, the children will learn a thing or two from you, like how to be a team player, how to be a nice person, how to be good. ----

KNOWN ISSUES: - The game is not currently fully optimized. There are bugs. We are working on them! - The game runs fine on tablets and mobile devices, but please test on PC first. - The Google Chrome browser is currently unavailable, and we cannot guarantee the game's experience on it. -----

----- FEATURES: - Play

Pro Wrestling X is an indie wrestling game that combines the simplicity of old school wrestling games with the realism and depth of today's wrestling games. Two consoles. Two control schemes. Two wrestling eras. We realize that the wrestling game genre is vast, multi-faceted and incredibly diverse. With that, we're building a game that works for a wide variety of wrestling fans, and we welcome feedback on all aspects of gameplay: – movement controls – How do you play your wrestling game? – throw mechanics – How do you throw your opponent? – striking mechanics – How do you attack? – submission mechanics – How do you submit? – extemporaneous items – How do you use your special abilities? – arenas – What kind of arena do you want to play in? – rivalries – What rivalries would you like to explore? – online functionality – What are you looking for in an online game? – website – How can we support you in this process? As a wrestling fan yourself, or if you're here for the first time, welcome! Just a quick reminder to check back in on the progress of Pro Wrestling X on the Indiegogo crowdfunding campaign. If you have ideas for what to do with the \$250,000 stretch goal, feel free to drop us a line. One of the things we are contemplating is adding more wrestler models to

the game. We're hoping to produce a pack of wrestler heads for the crowd to place on the arena, and we've even considered full wrestler bodies, depending on the money raised. For those of you interested in the project, there are some "other ways to support" the game if you can't give money. We're looking for enthusiastic beta testers, excellent reviewers, and generous people with access to code that might help us. If you can provide these in exchange for free copies of the game, we'd like to pay you appropriately. It's one of the reasons why we built the social-media-based funding site in the first place. We'd like to keep in touch with the progress of the game, so we created a Kickstarter page that will be updated from time to time with new updates and contest announcements. Once again, thank you for your continued support! We want to thank everyone for their enthusiasm and support with this project. Since we launched back in May, we've experienced a few bumps in the road, and we've all been busy rebuilding and re-organizing things c9d1549cdd

What's new in Schrodinger's Cat Simulator - PT:

Level 20 A Level 20 Skill Skirmish: Awaken Skirmish is a new mode that lets you compete with your own characters for a variety of different situations using the various skills found on all SKS characters. How It Works Using a standard Pentakill strategy, you will need to use your own skills to overcome your opponent's. As you level up, you will be given Skill Skirmish practice missions to practice your skills. Communicating with Other Players over the A.S. Games Server If you've played GameAce, we've set up our GameAce games server "A.S. Games", which you will find here -> We're working on improving this server service to be stable and provide better service to our players. We encourage you to try it out on the server if you'd like to test the transfer feature without transferring your character. If you're using it for the first time, please do not use your bank account when transferring to the server since we're not entirely sure what may happen. Please note: We will be allowing players to backup their characters using GameAce's cloud service; anyone who has previously had a GameAce account will need to log in and/or register for an account. Misc. Improvements Japan Server We've been working on an improved version of the original "the Japanese server" which, since they had to remove some features, have sped up the server's reactions, improved the sound effects, and are now working on a new graphical update. We will be rolling out the update to our North American and Asia servers once its been completed, but we will have an estimated time-frame for it once we find it. New Online Ranking System for the Awaken Mode Last month we've announced

our new online rankings for Awaken Mode. Now, with the support of Numemon Ltd., we have been able to improve the online ranking system and provide better online rankings since we will be providing accurate scores. Currently we're testing out the new system as we practice our battles, so please bear with us as we continue to improve the game. February 2013 Balance Changes Alliance of Confessors Inc: Level 3 Character The Level 3 has had its recovery and speed of attack improved. HP has been added, so she can function as a mobile counter for your other characters.

Free Schrodinger's Cat Simulator - PT

In Loot Hound, your character needs to grow and evolve into an elite Thief, Assassin, and Gunslinger that will uncover the secrets of a dying world and bring them back to safety. But time is short and the world needs your help. The predatory monsters roam the lands and soon they will take everything they see. The landscape of Loot Hound is full of hazardous and amazing things that your character must overcome. Other players, who have traveled the same roads, have shared their knowledge and some of them have even tried to kill you. Join your peers to set out on dangerous journey, survive, and grow as one of the best Thief, Assassin, and Gunslinger. Join the Dawn of the Modern Era! -Explore a World 3D with realistic architecture and beautiful scenery. -Fight with your enemies and other players in realtime battles. -Develop your

character by gaining experience and knowledge. -Build a story with the many side-quests and single-player mode. -Use in-game relics, customizing your character and fortify your camp. -Test your skills in 3D-conversions, where you will face challenging opponents and obstacles. Features: -Fully interactive and dynamic 3D environment. -Fight for your life during encounters. -Customize your character using clothes, weapons, equipment, and skills. -Full story campaign with a lot of side quests, challenges, and activities. -Compete with other players by joining them in battles or by creating your own world. -Buy and sell custom goods (items and relics). -Explore the game world and build your own camps. -A light RPG that avoids the need for grinding. -Intuitive and easy controls for a very immersive experience. -Clean and fun environment for children and adults. -Designed for a relaxed gameplay experience and friendly feel.
