VBA is used to program AutoCAD functionality on Windows-based platforms. VBA provides a general and standard programming language for the computer, allowing AutoCAD software to be easily programmed using the Windows programming environment. VBA is standard for Windows programs. AutoCAD is a popular add-on to Office applications, including Microsoft Word and Excel. ObjectARX (originally called ADRX) is a C++ class library for AutoCAD, which was also used to create products extending AutoCAD functionality to specific fields. ObjectARX was the basis of Windows-based products including AutoCAD Architecture, AutoCAD Electrical, AutoCAD Civil 3D, AutoCAD Architecture for Windows, AutoCAD Electrical for Windows, AutoCAD Civil 3D for Windows, and AutoCAD Architecture for Windows. AutoLISP is a dialect of the common Lisp programming language. It is the implementation of the LISP programming language in AutoCAD. AutoLISP is a dialect of the standard LISP programming language. AutoLISP has a tight coupling with AutoCAD and it is an open language (like Visual Basic and many other "simple" programming languages). AutoLISP is a GUI programming language. AutoLISP is built into AutoCAD LT and is also used in Autodesk Design Review, DGN, and DWG file formats. AutoLISP is the basis for developing AutoCAD Applications for Windows, AutoCAD LT, and Autodesk Design Review. The API is an open technology standard available for several programming languages, including AutoLISP, VBA, C++, Visual Basic, Borland's Delphi, Python, and COBOL. ObjectARX is used to develop third-party Autodesk products extending the AutoCAD drawing engine to specific fields, such as architectural modeling. AutoCAD Architecture was the first implementation of AutoLISP. It allows embedding the AutoCAD user interface in third-party applications. Release history Awards In June 2005, AutoCAD 2005 won the William Lowell Putnam Award, which "recognizes exceptional achievement and leadership in the development of a computer software system which demonstrates the leadership in its class." The awards are judged in the computer science discipline. See also List of AutoCAD features List of vector graphics editors Comparison of CAD editors af5dca3d97
